Saturday 22 January 2022 | BNP Paribas Fortis Antwerpen

Introduction

Dear colleague

We are delighted to invite you to the 18th Thoracic Oncology Winter Symposium on **Saturday 22 January 2022**.

We reconnect with our succesful formula to invite key note speakers who will present and discuss last years' important novel insights and advances in the management of thoracic tumours. We will convene in the large and well ventilated downtown auditorium of BNP-Paribas in front of Rubens' house, where standard corona virus measures will apply.

Although some of the presentations will be by videocall, this meeting is by no means virtual. Hence don't miss the experience of meeting your colleagues F2F. After a half day of great science, feel free to shop around, as the sales season is on.

We look forward to greet you in the magnificent city of Antwerp!

Annelies Janssens, UZ Antwerp
Jan van Meerbeeck, UZ Antwerp
Veerle Surmont, UZ Ghent
Yolande Lievens, UZ Ghent

18th WINTERSYMPOSIUM THORACIC ONCOLOGY Saturday 22 January 2022, Antwerp
